

PROTECTIVE APRONS AND APPAREL

2022

Barrier Technologies®

Your Safety is Our Concern™

Your Safety is Our Concern™

Welcome to our new protective apron and apparel catalog. Through our steadfast commitment to product innovation and development, we are proud to bring you our new and existing product editions.

As a leading manufacturer of radiation protection products, we strive to develop and manufacture innovative products designed to protect healthcare personnel from the harmful effects of scatter radiation.

We are excited to introduce our new UltraFlex™ anti-bacterial stain resistant fabric and our MagnaGuard™ line of velco-free aprons and thyroid collars. Our unique UltraFlex™ fabric protects healthcare practitioners from all types of occupational hazards by being completely impervious to liquids thus eliminating stains and exposure to hazardous fluids produced during procedures.

Through our steadfast commitment to product innovation, we have developed MagnaGuard™ a revolutionary magnetic closure system that eliminates the need for Velcro. Our extensive bacteriological testing has confirmed the presence of MRSA and other dangerous bacteria on the Velcro closure portion of the Apron & Thyroid Collar. This bacteria is a cause of HAI (Hospital Acquired Infection) which costs the healthcare industry \$billions/year. MagnaGuard™ can be properly disinfected with a hospital grade disinfectant which will help to eliminate these dangerous forms of bacteria. The end result is a protective garment that is cleaner, safer, long-lasting, and environmentally friendly which benefits the Healthcare institution, practitioner, and patient.

COVID-19 COMPLIANT

The Barrier Flex

- Provides excellent weight distribution & comfort
- Two full adjustable Velcro straps cross in the back & attach in the front providing a comfortable fit while keeping the apron securely on the shoulders
- Adjustable elastic inserts in the rear flaps offer greater comfort, adjustment & support
- Comfortable fit during long procedures
- Shoulder pads provide additional comfort

BF

OR Quick Release

- Designed for quick release in the OR without compromising the sterile field
- Just release the Velcro straps at the hips and the apron falls off
- Adjustable elastic inserts in the rear flaps offer greater comfort, adjustment & support
- Shoulder pads provide additional comfort

ORQ

The Basic

- Our most economically priced frontal apron
- 2" Buckle with Velcro shoulder strap to keep apron snug
- .5mm Lead equivalent

TBB

Adjustable Flex with Wide Belt

- 6" fully adjustable wide elastic belt shifts the weight of apron from the shoulders to the hips
- Even weight distribution for less stress on neck and back
- Fully adjustable back saver belt provides maximum support to the lower lumbar region
- Velcro shoulder strap helps prevent slippage
- Shoulder pads provide additional comfort

AFWB

Support Vest and Skirt

- Fully adjustable integrated back support belt provides maximum support to the lower lumbar region
- Maximum freedom of movement with full front & back protection
- Even weight distribution helps reduce body fatigue
- Elastic insert in skirt affords a more comfortable fit
- Shoulder pads provide additional comfort

Enhanced attenuation with Secure Shield™ Core Material Inside

SPVS

Barrier Wrap with Support

- Provides full wrap around protection against direct & scatter radiation
- One-piece design enables easy-on & easy-off
- Fully adjustable integrated back support belt provides maximum support to the lower lumbar region
- Full length adjustable Velcro closures ensure a comfortable & secure fit
- Shoulder pads provide additional comfort

Enhanced attenuation with Secure Shield™ Core Material Inside

BWSP

Barrier Flex Vest and Skirt

- Elastic back provides greater comfort, adjustment & support especially during long procedures
- Even weight distribution helps reduce body fatigue
- Optional elastic insert in skirt affords a more comfortable fit
- Shoulder pads provide additional comfort

BFVS

Standard Vest and Skirt

- Maximum protection & freedom of movement
- Ideal choice for long procedures
- Even weight distribution helps reduce body fatigue
- Optional elastic insert in skirt affords a more comfortable fit
- Shoulder pads provide additional comfort

SVS

DYNAMIC TEMPERATURE REGULATING RADIATION PROTECTION APPAREL

INTRODUCING DTR TECHNOLOGY

Too Hot

Just Right

Too Cold

Temperature Regulating Textiles

DTR utilizes phase change materials (PCM) that absorb, store and release heat for optimal thermal comfort.

DTR molecules absorb the excess heat.

Stored heat is released to the body as needed.

The result is a constant microclimate.

Tested in Space, and Right Here on Earth

The only phase change material that carries the *Certified Space Technology™* seal of approval.

Velcro-free Dental Aprons

Magnetic Closure

Eliminates Cracking

Enhanced attenuation with Secure Shield™ Core Material Inside

- **MagnaGuard™** Magnetic Closure
- **UltraFlex™** Anti-bacterial, Stain Resistant Fabric
- **SecureShield™** Core Material Eliminates Cracking
- Available in Pb Standard & Pb Free Protection

THYROID COLLARS

Velcro-free Thyroid Collars

Disposable

Visor

- 0.5mm Pb protection
- Available either separate, sewn or tethered to your apron
- Available in all fabrics
- Provides complete protection to the neck and sternum

Barrier Band

- Pb Free
- Disposable
- One size fits all
- Elastic fitted closure
- Available in 0.35 or 0.5mm Pb protection

Lead Cap

- Protection for the entire head
- Velcro fitted closure
- Available in 3 sizes
- Available in 0.35 or 0.5mm Pb protection

Protective Sleeve

- Available in full and half length
- Protects arm against scatter radiation
- Effectively shields long bones
- 0.5mm Pb equivalency protection

Demi Apron with Rack

- Attached belt with 1" buckle back
- Available in 4 sizes
- 0.5 Pb equivalency protection

- Shields pelvic region
- Easy to use 2" buckle belt closure
- Can be worn in either front or back
- Excellent protection for patient and staff

Half Apron

Elastic Belt with Draw Strings

- Employs a cinch & pulley system to evenly tighten the belt
- Provides extra rigid back support while supporting the weight of the apron
- To be worn over the apron
- Will not roll at the waist
- Available in S, M, L, XL & XXL

- For optimal lower back support & comfort
- Firm but flexible side supports eliminate back strain and fatigue
- Can be worn either over or under any apron
- Can be built into apron for permanent use
- Vented material provides all day comfort
- Available in S, M, L, XL & XXL

Ortho Belt

Table Shielding Drapes

Custom Table Scatter Shield features a saddle back design allowing a secure fit to any style imaging table. The overlapping paneled shields are secured to a padded surface that simply drapes over the tabletop, beneath the mattress.

Pleated lead panels enable staff and c-arm mobility. Customized to specific table dimensions, panel lengths or to include table end flaps. Constructed of 0.5mm Pb equivalent panels. Select from our wide range of UltraFlex™ anti-bacterial/stain resistant fabrics.

Protective Blankets

Nylon-covered 0.5mm Pb equivalent protective blanket may be used for shielding patients or equipment.

Protective Apron Tote Bag

- Convenient way to carry your protective apparel
- 28" length minimizes the need to fold your apron
- EZ-Carry handle & shoulder strap included
- Fully customizable with your name and company logo embroidered
